

According to a beautiful tradition, every four years The Conference on Science and Engineering of Oxide Materials - **CONSILOX** is organized.

Taking into account that the first edition of **CONSILOX** Conference was organized at Brasov in 1972, at the initiative and under direct organization of Prof.dr. Ion Teoreanu supported by Prof. dr. Petru Balta, this is one of the oldest technical-scientific event from Romania. Always **CONSILOX** Conference was the place to be for scientists, students and industrialists willing to have a direct access to novelty in the field of oxide materials and promoting the cooperation between academic and economic media.

Starting with the 10<sup>th</sup> edition, held in Timisoara (2008), **CONSILOX** has become an international conference.

Scientific event of high prestige **CONSILOX -12** will be hosted by the International Hotel from Sinaia, in the period 16 - 20.09.2016, the place where will meet specialists from university education, centers of research-development-innovation and from production of oxide materials from Romania and from countries with tradition in this range.

**CONSILOX - 12** will have plenary sessions and posters presentations.

In the frame of the Conference will be organized the thematic workshop "Application of the concept of circular economy in oxide materials industry. Co-incineration of wastes in cement industry. Performing of the Program "Zero wastes for Europe".

Also an exhibition will be organized, where sponsors and interested companies may present their own stands with products, research equipment and related information
